

IN CHILE

WE PROTECT

CHILDREN AND TEENAGERS

Welcome to Chile

We invite you to discover our country and its great culture diversity and spectacular landscapes.

We invite you to enjoy our national cuisine;

We invite you to support us in protecting our environment;

We invite you to contribute to the conservation of our artistic, natural, and cultural heritage;

Above all, we invite you to protect children and young people from all threats to their fundamental rights.

The commercialised sexual exploitation of children and youths is an extreme violation of rights. Because of this, we have laws that sanction all those who sexually exploit underage children, as well as all those who promote or facilitate these activities.

In Chile, the government, employers, workers, the general population and international organizations are working to bring this modern form of slavery to an end.
